EXPERIENCE:

Telehealth Physician

Springfield, IL; Lakeland, FL (HQ) - Austin
Medical Associates - 2024

- Conduct synchronous phone consultations with patients to assess their medical history and determine the appropriateness of genetic testing.
- Evaluate patients for specific genetic testing, including cancer genetic screening, neurologic disease genetic markers, and immunologic genetic markers.
- Perform ICD searching, coding, and detailed analysis to ensure accurate medical documentation and proper billing practices.
- Provide expert medical guidance based on genetic test results, collaborate with patients on actionable next steps, and address any concerns or questions regarding the testing process.

Signify Health Physician

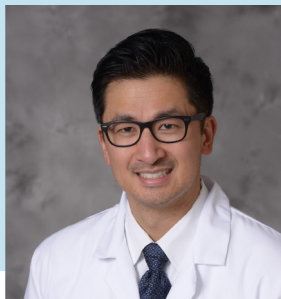

Dallas, TX (Headquarters)
2019 - 2021

- Conduct in-home patient assessments, specializing in various medical conditions and treatment modalities.
- Provide telemedicine services, demonstrating effective communication skills and the ability to manage patients remotely.
- Perform chart and medication reviews; hold treatment plan suggestion discussions.

Neurology Resident Physician

Springfield, IL - Southern Illinois University SOM
2021 - 2024

- Conducted comprehensive neurological evaluations and assessments with a wide range of conditions, including stroke, epilepsy, and movement disorders.
- Developed and implemented patient management plans, i.e. pharmacological interventions, lifestyle modifications, and referrals to other specialists, using evidence-based guidelines.
- Participated actively in multidisciplinary rounds and case conferences, collaborating with attending physicians, nurses, therapists, and other healthcare professionals to optimize patient care and outcomes.
- Engaged in scholarly activities e.g. literature reviews, case presentations, and research projects, contributing to the advancement of knowledge in the field of neurology and fostering a culture of lifelong learning and professional development.
