ABOUT ME

Compassionate and detail-oriented Physician Assistant with a Master of Science degree and extensive experience in patient-centered care. Currently serving at Fairfax Gynecology Group, I excel in clinical assessment, diagnostics, and treatment planning. Adept at collaborating with multidisciplinary teams to ensure optimal patient outcomes. I am passionate about delivering high-quality care and continuously improving clinical workflows. Seeking a new opportunity to leverage my skills in a dynamic healthcare setting

WORK EXPERIENCE

PHYSICIAN ASSISTANT

Fairfax Gynecology Group (December 2020-Present)

- Delivering high quality, evidence based, culturally sensitive gynecological care for a diverse population via diagnosis, management and counseling
- Maintain detailed and accurate medical records in Athena EHR
- Spearhead efforts for clerical and medical ancillary staff training and oversaw clinic workflow optimization initiatives
- Develop and implement clerical and medical staff training, standards, and best practices
- Train and mentor Physician Associate and Nurse Practitioner students
- Clinical liaison to Privia Medical Group for clinic website management
- Project manager for website content and social media projects
- Promote clinic reputation through clinic outreach campaigns
- Design provider promotional print material, clinic logo and patient engagement material

PHYSICIAN ASSISTANT

Annandale OBGYN (March 2019- November 2020)

- Managed care for pregnant women from first trimester to term
- Perform infertility consults and initiate and manage fertility treatments
- Delivered high quality gynecological care for women from puberty to menopause
- Coordinated and facilitate staff meetings across three clinic sites to identify areas of improvement and develop deliverable action plans
- Project manager for transition of clinic website, google business advertisement and social media accounts from Patient Pop to Privia Medical Group
- QA content and design of clinic website
- Develop and design patient educational material

PHYSICIAN ASSISTANT

Stanford Health Care - OBGYN Partners for Health (May 2016- May 2019)

- Integral team member for a high volume, diverse, practice
- Provide high quality care for high risk OB and GYN patients
- Maintain detailed and accurate medical records in Epic EHR
- Contribute to efforts focused on clinic resource optimization, workflow standardization, and improving patient access to care
- Experienced with the 5S system
- Remotely manage provider inbox and triage patient cases

SHARA MAE CHEN, MS, PA-C
